PLATINUM SWISS NANO CAPS

# SWISS ENERGY® MEANS HIGH QUALITY VITAMINS

SWISS ENERGY® food supplements have been specially developed by **FreiCare Swiss AG, Switzerland**, taking into account recommendations of the leading health care specialists.

Thoroughly researched patented ingredients in combination with the strictest manufacturing standards guarantee **premium quality** of the products.

PLATINUM SWISS NANO CAPS

## BEST MANUFACTURING PRACTICE

We use only **GMP-certified** manufacturing facilities that have passed our rigorous requirements and monitor every product throughout the production cycle to ensure it meets the highest quality standards.

Manufacturing facilities meet the requirements of the **international quality standards** and thoroughly tested at every stage of the production cycle — from raw materials to finished product.

PLATINUM SWISS NANO CAPS

## PROVEN SCIENCE

We focus on the development and manufacturing of **scientifically-supported** vitamins and supplements to help you follow a healthy lifestyle.

We collaborate with nutritional scientists who are developing new ingredients and we study their clinical findings to determine the most effective way to provide the desired results.

# SWISS ENERGY<sup>®</sup> IS AN EXPERT IN THE MOST ADVANCED TECHNOLOGIES

FreiCare Swiss AG is specialized in **modified release** systems for oral consumption based on the application of the most advanced technologies.

Sustain release technology can be applied to many formulations. Providing modulated absorption it ensures **high efficiency and safety of use.**

## SUSTAINED RELEASE CAPSULES: WHAT'S INSIDE

Sustained Release Capsules are innovative dosage form that presented in **micro-pellets**: spherical granules of about 1 mm diameter.

Micro-pellets are dosed in HPMC capsules. Active substances are coated with **pH-resistant organic membrane** that covers the active ingredients.

## PLATINUM SWISS NANO CAPS

# SUSTAINED RELEASE CAPSULES PROTECT ACTIVE INGREDIENTS

pH-resistant polymeric membrane does not dissolve in stomach and ensures **protection** of active ingredients from the damaging action of gastric acid.

The polymeric membrane **dissolves into the duodenum**. Therefore the active ingredients are protected until their arrival to the intestine.

pH-resistant membrane protects active ingredients from gastric acid in duodenum

pH-resistant membrane starts dissolving in duodenum

## SUSTAINED RELEASE CAPSULES PROVIDE BETTER ABSORPTION

Sustained release (SR) capsules are developed to release active ingredients gradually over a **long period of time** (about 8 hours)

SR capsules ensure a **better absorption** of active ingredients and better tolerability in a daily diet.

Sustained release technology guarantees high efficacy of action during the whole day. Scientifically proven intake of **1 capsule per day**.

# SUSTAINED RELEASE CAPSULES ENSURE BETTER EFFICACY AND SAFETY

Sustained release dosage form becomes very important to achieve better efficiency with **no risk of side effects**.

SR dosage form allows to **prolong the effectiveness time** of active ingredients.

SR dosage form allows to avoid absorption peak risks to achieve better safety level.
