BEST MANUFACTURING PRACTICE

We use only **GMP-certified manufacturing facilities** that have passed our rigorous requirements and monitor every product throughout the production cycle to ensure it meets the highest quality standards.

Manufacturing facilities meet the requirements of the **international quality standards** and thoroughly tested at every stage of the production cycle — from raw materials to finished product.

EFFERVESCENT TABLETS

FAST ACTION AND HIGH EFFECIANCY

Effervescent tablets are one of **the most effective forms** to deliver active ingredients into the body.

This form provides **fast and full absorption** of the nutrients compared to the other forms such as regular tablets, capsules, etc.

According to the clinical studies, active ingredients are absorbed into the body already **in 15 minutes**. Therefore, the active ingredients start to affect at once and their efficiency increases significantly.

EFFERVESCENT TABLETS

HIGH SAFETY STANDARD

SWISS ENERGY vitamins **do not contain artificial flavors and colors.**

Effervescent tablets completely dissolve in water. As a result, there is no direct contact with the digestive tract and there is **no possible irritant effect on a stomach.**
