

**GOOD MORNING!
NO HANGOVER!**

HANGOVER – THIS IS WHAT HAPPENS TO EVERYONE!

- **A quarter of the population** of the entire planet each week faces hangover
- Each adult has a hangover **at least once a month in average.**
- Every twentieth person suffers from hangover **6 or more times a month.**
- **30 years old** is an average age of a person having the strongest hangover syndrome.
- Every second person **went at work with a severe hangover** at least several times in his life.
- In case of hangover, work of brain slows down by three times, the concentration almost disappears.

WHY DO WE FEEL BADLY AFTER TAKING ALCOHOL?

Poisoning. Alcohol is turning into toxic substance (acetaldehyde). In addition many alcoholic beverages contain toxic fusel oils.

Dehydration. Alcohol consumption increases urine excretion, sometimes accompanied by vomiting and sweating. Loss of liquid and electrolytes leads to thirst and weakness.

Metabolic disorder. Struggling with alcohol, organism consumes a lot of vitamins. Therefore, it leads to a shortage of these important elements in the body.

Sleep disorder. In case of being drunk, you cannot feel yourself rested even after 8 hours of sleeping. Usually after party, you feel fatigue and tiredness all day long.

GETTING FEEL BETTER!

Effervescent water soluble tablets **Guten Morgen** is a complex product that contains 15 ingredients! It includes various vitamins, amino acids, caffeine and others substances to help **overcoming hangover!**

GUTEN MORGEN is a delicious refreshing lemon-flavored drink that **easy to drink** even with a severe hangover!

One tablet contains:

| | | | |
|-------------------|---------|------------|----------|
| Vitamin C | 50 mg | Taurine | 20 mg |

| Fumaric acid | 37,5 mg | | |
| Glutamic acid | 100 mg | | |
| Succinic Acid | 100 mg | | |

lemon flavor

STRUGGLING WITH INTOXICATION!

Acetaldehyde and fusel oils that formed from **ethanol lead to severe intoxication and poisoning of the body.** Neutralization of these toxins is carried out in the liver.

L-Cysteine, L-Lysine and L-Arginine are amino acids that help liver enzymes to neutralize all toxins faster.

Fumaric, glutamic and succinic acid take part in destroying of acetaldehyde.

GUTEN MORGEN quickly copes with intoxication of the body!

FAST HEADACHE RELIEF!

The cause of a hangover's **headache is dehydration, widening of brain vessels and metabolic disorder in cells brain.**

GUTEN MORGEN is a refreshing drink that **quickly fills up the lack of liquid in the body.**

Caffeine is considered one of the best natural stimulants. It constricts brain vessels, stimulates cardiac activity and improves blood circulation. Caffeine increases attention and improves mood.

Vitamin C makes vascular walls more durable.

Taurin improves the elasticity of vessels walls and helps lower blood pressure.

After taking Guten Morgen, people with headaches quickly **feel relieved!**

HIGHLY EFFECTIVE AGAINST SICKNESS AND VOMIT!

Sickness and vomit are associated with the negative effect of alcohol on the stomach and with the change of pH-balance to acidic side.

GUTEN MORGEN is an alkaline drink that helps **to recover pH-balance in the body.**

Caffeine stimulates the secretion of gastric juice.

Taurine helps a liver to digest food.

MAKING UP THE LOSS OF VITAMINS!

A hangover is often accompanied by vomiting and sweating. Because of that, body loses liquid and vitamins.

Due to **the high dosage of vitamins B-group and vitamin C**, such losses are quickly compensated.

Alkaline drink helps to recover the correct pH of the body and maintains the metabolism and water-electrolyte balance of the whole organism.

GUTEN MORGEN allows you to quickly overcome all the symptoms of hangover!

GET FREE FROM UNPLEASANT SMELL

The cause of unpleasant alcohol smell from the mouth is **decomposition products of alcohol** (acetaldehyde, acetic acid). These products are excreted through breathing, with sweat and urine. It is impossible to defeat the bad smell by rinsing or chewing gum, because the smell comes from the whole body, not just from the mouth.

Smell disappears only after **complete removal alcohol** from the organism. This process may take from several hours to several days. Amino acids L-Arginine, L-Lysine, L-Cysteine, as well as succinic, fumaric and glutamic acids accelerate the breakdown of alcohol and its removal from the body.

Because of the complex action, GUTEN MORGEN allows **quickly get rid of unpleasant smells and cleanse the body**.

GOOD MOOD WITHOUT HANGOVER

Due to health issues, bad sleep and fatigue, everything causes irritation and nervousness.

Inositol and taurine are important substances that are necessary for the health of the nervous system and for its normal functioning.

Inositol improves energy processes in brain cells and recommended for irritability and insomnia.

GUTEN MORGEN helps to **quickly find peace of mind and improve mood!**

FRESHNES OF MIND AND BODY!

Everyone is familiar with the fact that after a party it is very difficult to focus and perform even simple mental work.

Concentration is absent and this can lead to serious, sometimes irreparable mistakes in the workplace.

Caffeine helps focus and feel invigorated.

Taurine normalizes synaptic transmission between brain cells and improves its performance.

NEXT MORNING YOU ARE DRIVING AGAIN!

We often feels effects of alcohol intoxication on the next morning after a good party. There are such effects as unpleasant smell, sleepiness, headache, etc. This is a consequence of the fact that the body has not yet coped with alcohol and there are remains alcohol in the blood, what does not allow driving the car.

GUTEN MORGEN allows to quickly remove alcohol from the body and get back to the wheel safely.

GUTEN MORGEN DOES NOT ONLY STRUGGLE WITH HANGOVER BUT ALSO PREVENTS IT!

Guten Morgen **is recommended:**
